

Kristin K. Tucker

Kristin Tucker began her career within Information Technology in 1987. Currently the Managing Principal of TDK Technologies, LLC, Kristin was one of the founding members of the organization in April 2001. Kristin's duties include operational management of TDK Technologies, management of the Management Services practice, recruiting, and business development.

Prior to starting TDK Technologies, Kristin spent twelve years at Solution Consultants, Inc. Hired as one of the original consultants, Kristin held positions of increasing responsibility, including staff consultant, project manager (for both fixed bid and staff augmentation projects), marketing representative, and operations manager responsible for over fifty consultants.

Kristin has worked in a variety of industries, including financial management, healthcare and manufacturing; and for clients including Mallinckrodt, Edward Jones, Ralston Purina, BJC Healthcare and AG Edwards. Throughout her career, Kristin learned how to best serve the client and the consultant, and has focused on implementing those skills into TDK Technologies' business model.

Kristin previously held application development and analysis roles with Monsanto and Forrest Ford Consultants, Inc.
